DETAILED ACTION

1. The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 1638.

Election/Restrictions

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-24, and 26-39, drawn to full length DNA.

Group II, claim(s) 25, drawn to oligonucleotide.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

In view of the indefinite claim language, such as "derivative thereof" and "hybridizing ... under low stringency conditions," the claims directed to a full length DNA of Group I read on nearly any DNA, including, for example, the DNAs disclosed by the prior art Davies reference

(Plant Science 95: 67-77, 1993). Therefore, there is no special technical feature which links the full length DNA of Group I and the oligonucleotide of Group II under PCT Rule 13.2, and Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
